### Make CalPERS Strong Again

# ELECT CATHY HACKETT

**T**he economic crisis caused by insider investors hurt our retirement fund.

To recover from those bad deals, CalPERS needs a tough analysis of our investments and a hard look at the bottom line.

After more than a decade examining multi-billion dollar budgets and protecting retirement and health care security, Cathy Hackett will get CalPERS back on track.

We need an accessible, common sense representative protecting our hard-earned investments.

### ***Cathy Hackett works for solutions:***

- ***Improve oversight of investment managers and agents***
- ***Stop insider deals that only make investors rich***
- ***Invest for long-term stability not risky schemes***
- ***Make “investment professionals” work for CalPERS members.***

## Protect Our Pensions **VOTE CATHY HACKETT**
