## Session Overview 2018

### ***Sponsored Bills***

Ideas for CFT-sponsored legislation come from a number of sources. CFT members communicate their ideas for legislation through governance meetings and adopt resolutions at Convention. When the Convention adopts a sponsored bill program, CFT lobbyists work to secure legislators to author the bills and see the bills through the legislative process to the governor's desk. The location of sponsored bills in the legislative process is reported on a grid.

### ***Taking and Reporting Positions on Bills***

After the sponsored bill grid, Assembly bills, resolutions and constitutional amendments appear first, followed by Senate bills, resolutions, and constitutional amendments. The following position descriptions are used:

- Support – CFT agrees with the policy provisions and will work to support the bill in the legislative process.
- Oppose – CFT does not support the bill and will work to defeat the bill in the legislative process.
- Watch – may mean that the bill has both good and bad points, or that CFT prefers to wait for future amendments or a later time to take a position.
- Oppose Unless Amended – CFT does not support the bill but would remove opposition if key amendments were made. If these amendments are made, CFT's position will then be modified to a "support" or "watch" position.
- Support If Amended – CFT will support a bill if specific amendments are made to the bill's provisions.

As these bills develop, the staff will recommend a position, in accordance with guidelines established by the Convention, to the Legislative Committee, a standing committee of the Executive Council.

## CFT Philosophy

In addition to the objectives outlined in our constitution, the California Federation of Teachers takes positions on social, economic and cultural issues underlying CFT's mission. The Federation demonstrates its adherence to this set of ideals in stands it takes on legislation and initiatives, in its endorsements of candidates at all levels, and in its distribution of Political Education (COPE) funds.

We support these policies and positions because education does not take place in a vacuum but in the real world. Changes in that world, whether political, social, economic or philosophical, affect students and education workers, making their tasks more difficult as they struggle to adjust the educational process to external forces. Attention to socio-economic issues makes it possible to address educational issues more clearly.

Thus, the California Federation of Teachers is committed to

- A progressive system of taxation to achieve adequate funding of education and other social programs;
- An end to violence, racism, sexism, homophobia and other forms of intolerance;
- A guarantee of a minimum level of health care, food and housing for every member of society;
- An increase of civic involvement by all members of society;
- An improvement in the democratic processes of government;
- A governmental policy addressing full employment;
- Providing universal child care;
- Education regarding nutrition and healthy living requirements;
- Reform in labor law in order to equalize the balance of power between labor and management;
- The protection of the environment;
- Democracy, freedom and social responsibility in the United States and the rest of the world.
